Hello team,

Happy Friday! If you could please review the email and photo and let me know your thoughts on next steps from an OHS perspective. Does Malahat have a “near miss” form?

Thanks so much,

Jeni Gunn

Subject: Near miss fire hazard

Morning -

As part of our electrical shed sorting/cleaning this morning we discovered the KKC storage room was dangerously stuffed with items (we were re-directing the storage of KKC items). I directed Haley, with Jessica's consent to move some of the girl group items to the connection space. During this task she discovered a significant fire hazard (see attached photo). Lucky to have found this!

Not too sure next steps?

Melissa
